

FRIGID FLUID CO.

FREIGHT DEDUCTION POLICY & HAZARDOUS MATERIALS GUIDE

Effective May, 2012

IL Shipments

Frigid Fluid Co. offers free freight on embalming fluid and prep room supply orders shipping within the borders of the state.

ND, SD, NE, MN, IA, WI Shipments

For fluid orders of 7 or less full cases** Frigid Fluid Co. offers a 50% discount* off the invoiced freight charges, and for fluid orders of 8 or more full cases** we offer a 100% discount* off the invoiced freight charges.

Any **stocked** sundries (items beginning with 1- or 2-) ordered **with** embalming fluid will also qualify for the applicable freight deduction. Frigid-manufactured equipment and **any** drop shipped items (items beginning with R-) do not qualify.

IMPORTANT: If a shipment contains the product STOP then the default freight policy described below will go into effect.

All other States (default policy)

Frigid Fluid Co. offers a 50% freight deduction* on orders of 8 or more cases** of embalming fluid.

Any **stocked** sundries (items beginning with 1- or 2-) ordered with 8 or more cases of fluid will also qualify for the freight deduction. Frigid-manufactured equipment and **any** drop shipped items (items beginning with R-) do not qualify.

* *Invoice must be paid within 15 days for freight deduction to be granted.*

** *Embalming fluids that are sold 12 bottles/case count as ½ a case toward the 8 case qualification. Currently the fluids that are sold 12 bottles/case are:*

- *Humectant*
- *Plasma Flo*
- *Free Flo*

Policy subject to change at any time.

FRIGID FLUID CO.

FREIGHT DEDUCTION POLICY & HAZARDOUS MATERIALS GUIDE

Effective May, 2012

Embalming fluids and sundries deemed hazardous materials will incur extra D.G. shipping fees (see below). These extra fees **will not** be covered by the freight deduction policy. Only the transportation charges are covered. Currently the products classified as hazardous include:

- STOP - 16 oz. bottle
- Safe Powder - 25 lb. drum
- Paulex Powder - 25 lb. drum (1 lb. jar not applicable)
- Feature Builder - gallon

We can only ship hazardous material via truck (not UPS small package). As of the date of this document the D.G. charge is \$15.00 per hazardous shipment. Items do not need to be shipped separately. Shipping one item via truck is expensive so if you need to order a hazardous product it is advisable to consolidate it with a fluid order to avoid excessive shipping fees.

Policy subject to change at any time.
